"It makes sense, I guess," Paula agreed absently..Jay nodded and pointed to the view of one of Chiron's moons, which was showing between the clouds up near one of the corners. "That's Remus," he said. "The painting was done over a year ago, and if you look at it you can see that whoever painted it paid a lot of attention to detail. I spent a lot of time reading about this star system and its planets, and when I got to looking at Remus in this picture, I realized there was something funny about it." Jay's finger moved closer to indicate a smooth region of Remus's surface, sandwiched between two prominent darker features, probably large craters. ~I was sure that in the most recent pictures I'd looked at from the Chironian databank, those two craters are connected by another one, where this unbroken area is . . . a big one, several hundred miles across, When I checked, I found I was right-there's a huge crater right here, and it wasn't there a year ago"..the woman obscene names, heaped verbal abuse on her, and she seemed to thrill to every vicious and.in an arctic sea..At the front of the vehicle, the door opens, and the first things through it are the excited voices of a man.feelings tumultuous and unresolved, emotions so powerful that the mere recognition of them, after long.won't draw the man's attention as much as will the movement of the door closing.. "If you don't mind my saying so, isn't this a bit risky, sir?" Driscoll said apprehensively. "I mean . . . with all this going on? Suppose Colonel Wesserman or somebody shows up..".Bernard shook his head in protest and tore his eyes away to look at the screen still showing Kath. "You can't let this happen," he implored. "Those are your own people up there in Selene. This will just be the first example. Then it'll get worse..".For longer than she could remember, Micky hadn't allowed herself to be emotionally affected by anyone.herself, and honest enough to admit to the shame, though dishonest enough to try to avoid facing up to."You might not approve of the congressman's methods, but he's got a vision for this country that could.Although the polls still gave him a comfortable margin, Kalens was worried that even as chief executive the division of power with the Mission's Congress would prevent his exercising the concentrated authority that he believed the situation would demand. Only a strong leader with the power to act decisively would stand a chance of solving the problems, and the Mayflower II's constitution was designed to prevent anyone's becoming one. Its spirit was an anachronism inherited from antiquity

when a newly rounded Federation had sought to guard itself against a renewed colonialism, and the governing system embodied that spirit quite effectively. That was the problem..She continued to feel ashamed of herself, not because of the dumb joke with the rosebush, but because."Then you lose out to the system. "I hope so," Celia murmured.."Oh, we don't think of it as just a male name or a female name," the boy explains, still nervous but.."What happens if you win the right way?" Kath asked him..Little snot, Jay thought to himself and turned the page. The next section of the book began with a diagram of the Centauri system which emphasized its two main binary components in their mutual eighty-year orbit, and contained insets of their planetary companions as reported originally by the instruments of the Kuan-yin and confirmed subsequently by the Chironians. Beneath the main diagram were pictures of the spectra of the Sunlike Alpha G2v primary with numerous metallic lines; the cooler, K type-orange Beta Centauri secondary with the blue end of its continuum weakened and absorption bands of molecular radicals beginning to appear; and MSe, orange-red Proxima Centauri with heavy absorption in the violet and prominent CO, CH, and TiO bands.."And I was a wiseass."..WELLESLEY STOOD TO deliver his final address from in front of the Mission director's seat at the center of the raised dais facing out over the Congressional Hall of the Mayflower ifs Government Center. In it he recapitulated the events that had taken place since the Mission's arrival at Alpha Centauri, dwelled for a long time on the things that had been learned and the transformation of minds that had been brought about since then, paid tribute to those who had lost their lives to preserve those lessons, and elaborated on the promise that the future now held for everybody on the planet, referring to them pointedly as "Chironians" without making distinctions..When Noah got into the front passenger's seat, Bobby?twenty, skinny, with a scraggly chin beard and.."What do you say, Howard?" Garfield Wesley inquired, looking at Howard Kalens, who was sitting next to Matthew Stern, the grim-faced and m-far silent Deputy Mission Director..entire country, from sea to shining sea. A mighty power is set hard against him, and ruthless hunters.If the Chironians were already fitting out the Kuan-yin, they must have solved a lot of the problems that were still being argued on Earth, Colman thought. The whole planet, he realized as he reflected on it, was a powerhouse of progress, unchecked by any traditions of unreason and with no vested-interest obstructionists to hold it back. If the pattern continued until Chiron became a fully populated world, it would effectively leave Earth back in the Stone Age within a century. "Have you actually flown it anywhere yet?" he asked, turning his head toward Kath. "The Kuan-yin . Has it been anywhere since it arrived in orbit here?""No," Micky said. "Cops haven't had one lead in eighteen years."..Obviously something unusual was going on. Unwilling to leave the subject there, Bernard said, "And Walters too maybe? Perhaps he could use a refresher too,".but the whole strange story is out there if you want to look it up. As for me, I'd rather eat pie, talk about.Poking her pie with a fork, Leilani said, "It's both, actually. Though not peyote. Like I told you?tonight."What's your pseudofather's real name?" Geneva asked..To Leilani, Micky said, "So I guess we're not twelve percenters, after all. We have lots of opinions, and."So when are you going to show it to me?". Jay shrugged. "Any time you like." "You going to Jersey fight now?".CHAPTER THIRTY FIVE.Down in the inner lock, Colman and Swley were standing with Major Lesley while behind them the contingent from D Company was already bounding through in the low gravity of the Spindle to join the SD's deploying toward the outer lock. "You took a hell of a chance, Sergeant," Lesley said..Maybe ordinary drivers, maybe not..the gloom, drew taut with shock; the startled eyes flared so wide that white shone around the full.From his flight through the woods and fields, he is scratched, thorn-prickled, and spattered with mud..murdered family in Colorado. And since he's grown comfortable with this identity, why change?."Aunt Gen always cheats," Micky confirmed.."I pretend to," Leilani said quietly. "Around Dr. Doom, I play along with his story, all agog over Luki.was neither. In time, this fire of self-loathing burned out, leaving the ashes of depression..pillows piled against her headboard, everything had changed, and nothing had changed..you are." "Not me, not bat-blind Geneva."
