"Done," Agnes said. "Now put away the three dollars, and let's have our lesson before my water breaks." On the High Marsh. One of his favorite gifts for Christmas 1967 was a twelve-hole chromatic harmonica with forty-eight reeds providing a full three-octave range. Even in his little hands, and with the limitations of his small mouth, this more sophisticated instrument enabled him to produce full-bodied versions of any song that appealed to him. "Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." EARLY CHRISTMAS EVE, gallery brochure in hand, Junior returned to his apartment, puzzling over mysteries that had nothing to do with guiding stars and virgin births. "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth—they pit us one against the other, for their gain not ours. We sell em our power. Why do we? If we went our own way together, we'd do better, maybe." The mortician and his assistant had nearly finished dismantling the frame of the winch. Soon a worker would close the hole. Besides, he'd noticed a tendency among dopers to get maudlin, whereupon they sank into a confessional mood, seeking peace through rambling self-analysis and self-revelation. Junior was too private a person to behave in such a fashion. Furthermore, if drugs ever put him in a confessional mood, the consequence might be electrocution or poison gas, or lethal injection, depending on the jurisdiction and the year in which he fell into an unbosoming frame of mind. Although to Paul this was no more than childish chatter, Tom knew at once that the girl referred to his explanation for why he wasn't sad about his damaged face: the salt and pepper shakers representing two Toms, the hit-and-run rhinoceros, the different worlds all in one place. "Yes, Angel. That's something like what I was talking about." "Me, me," Celestina said. "In fact, fianc?es should come first." "Well, the lab could detect abnormally high salt levels, but that wouldn't matter in court. He could say he ate a lot of salty foods." Waking from a starry night in the Old West into electric light, gazing up into a blur of faces sans cowboy hats, Agnes felt someone moving a piece of ice in slow circles over her bare abdomen. Shivering as the cold water trickled down her sides, she tried to ask them why they were applying ice when she was already chilled to the bone, but she couldn't find her voice. After he is rolled onto his back by his father, now, here, roses by the fistful jammed in his face, crushed and ground. The big trees on Vanadium's property also stood bare, allowing a relatively unobstructed view of the house. The back of the residence as dark, but a soft light warmed two windows at the front. The missing paintings. The missing collection of Zedd's books. You didn't take these things with you for a weekend in Reno. You took them if you thought you might never be coming back. As he rose from his chair, Barty began to reacquaint himself with the feeling of all the ways things are, began to bend his mind around the loops and rolls and tucks of reality that he had perceived on the roller coaster that day, and by the time he had followed Angel and Tom to the bottom of the stairs and into the oak-shaded yard behind the house, the day faded into view for him. By the time he got back to Spruce Hills, the early night had fallen. The pearly, waxing moon floated over a town that glimmered mysteriously among its richness of trees, flickering and shimmering as though it were not a real town, but a dreamland where a multitude of Gypsy clans gathered by the lambent amber light of lanterns and campfires. Dr. Chan's manner remained professional, providing the strength that Agnes required, but his pain was evident when his gentle voice softened further: "These tumors are so advanced, we won't know until surgery if the malignancy has spread. We may already be too late. And if we aren't too late, we'll have only a small window of opportunity. A small window. Eight days would entail too much risk." Maria set aside two cards before turning another faceup. This was also an ace of hearts. As hard of head as she was hard of heart, Victoria had not sustained serious brain damage, only a concussion. On October 15, Junior acquired a third Sklent painting: The Heart Is Home to Worms and Beetles, Ever Squirring, Ever Swarming, Version 3. He had time to think of quite a few, because he drove five miles per hour below the posted speed limit. He couldn't risk being stopped for a traffic violation when Thomas Vanadium, the human stump, was dead and bundled in the back. For more than twenty-three years, he'd given his big toe little consideration, had taken it for granted, had treated it with shameful neglect. Now this lower digit seemed precious, a comparatively small fixture of flesh, but as important to his image of himself as his nose or either of his eyes. Tom himself had decided to build a new life here, as well, assisting Agnes with her ever-expanding work. He was not yet sure whether this would include the rededication to his vows and a return to the Roman collar, or whether he would spend the rest of his days in civvies. He was delaying that decision until the Cain case was resolved. Perhaps this particular worry was not ordinary maternal concern. If a sixth sense is at work in all of us, then perhaps subconsciously Apes was aware of the tragedy to come: the tumors, the surgery, the blindness. "Money's no object. I can afford whatever you'd like to charge. And I'd be a diligent student." Yet he didn't fault himself for a lack of sensitivity. He'd met this woman only once before. He wasn't emotionally invested in her as he had been in sweet Naomi. "A nose, now, is a useful thing, a salable thing," Hound went on. "Not that I'm looking for competition. But a finder can always find work, as they say... You ever been in a mine?" He did wonder why he had chosen this night of all nights to become even a more fearless adventurer, rather than a month ago or a month hence. Instinct told him that he'd felt the need to test himself, that a crisis was fast approaching, and that to be ready for it, he must be confident that he could do what had to be done when the crunch came. Slipping into sleep, Junior suspected that Prosser might have been less lark than preparation. "All right. I get my new eyes from a doctor. They're not real eyes, just plastic, to fill in where my eyes used to be." From Christmas through February, he dated a beautiful stock analyst and broker-Tammy Bean—who specialized in finding value in companies that had rewarding relationships with brutal dictators. They had a few days for quiet celebration of this astonishing recovery of his sight, and in that time, she never tired of watching him read to her. He didn't think she even listened closely. It was the fact of him made whole that lifted her spirits so high as they were now, not any writer's words nor any story ever written. On the second morning of Barty's illness, Agnes came downstairs and found him at the kitchen table, in his pajamas, happily applying unconventional hues to a scene in a coloring book. "We were about to order dinner from room service," Tom said, handing a menu to Paul. She fussed over him, took his temperature, and spooned two chips of ice into his parched mouth. Leaving, she gave Celestina a meaningful look and tapped her wristwatch. Joey was standing just outside, gazing in at her. His blue eyes were seas where sorrow sailed. OF THE SEVEN NEWBORNS, none was fussing, too fresh to the world to realize how much was here to fear. "Take care you don't beat evil into him," said his aunt. The attorney's admission surprised Junior. This was probably as close as Magusson would

ever get to saying, Maybe you didn't kill your wife, after all, but he was by nature a nasty prick, so even an implied apology was more than Junior had ever expected to receive..They wore out a lot of cards and kept a generous supply of all types of decks on hand..Hound was sorry for him. "You know, if it was Gelluk questioning you, he'd have everything you know out of you just with a word or two, and your wits with it. I've seen what old Whiteface leaves behind when he asks questions. Listen, can you work with the wind at all?".Angel brightened at the sight of the coin turning end-over-end across his knuckles. "I could learn to do that," she asserted..Through the remainder of his dinner, he was entirely future focused, the past put safely out of mind. UntilThe upper end of the bed was elevated. Otherwise, Agnes would not have been able to see the room, for she was too weak to raise her head from the pillows..Five days later, on Barty's birthday morning, when Agnes and Edom were in the kitchen, making preparations for the visits that had earned her the affectionate title of Pie Lady, Barty was in his highchair, eating a vanilla wafer lightly dampened with milk. Each time a crumb fell from the cookie, the boy plucked it off the tray and neatly conveyed it to his tongue..Agnes's suspicion that Barty would be a child prodigy had grown from seed to full fruit on the morning of the boy's first birthday, when he'd sat in his highchair, counting green-grape-and-apple pies. Through the following two years, ample proof of high intelligence and wondrous talents ripened Agnes's suspicion into conviction..The restaurant wasn't fancy. A coffee shop. Aromatic bacon sizzling, eggs frying. The warm cinnamon smell of fresh pastries, the bracing scent of strong coffee. Clean, bright surroundings..Later, as Bonita and Francesca proudly served their mother's individually molded Christmas-tree-shaped servings of flan, which they themselves had plated, Barty leaned close to his mother and, pointing to the table in front of them, said softly but excitedly, "Look at the rainbows!".The symptoms that terrified Phimie-the headache, crippling abdominal pain, dizziness, vision problems-had entirely relented. Possibly they had been more psychological than physical in nature..Junior was not immune to traditional logic, but in this case he recognized the superior wisdom of Zedd's philosophy. His dread of Bartholomew and his gut-level animosity toward a child he'd never met defied all reason and exceeded simple paranoia; therefore, it must be purest, infallible animal instinct..He hadn't killed this one, of course. A traffic accident. Wasn't that what Vanadium had said? Ten months ago, following tendon surgery for a leg injury, Seraphim had been an outpatient at the rehab hospital where Junior worked. She was scheduled for therapy three days a week..Kitchen to dining room, dining room to hallway, keeping his back to the wall, easing quickly along, then into the foyer. Wait here, listening..same," Agnes admonished. "Who's been raising you, sugarpie, if you don't know that? Are you going to pretend you've been brought up by wolves for nine years?".Highly impressed by the spot-on hyena scream with which Frieda had purged herself of the childhood emotional trauma inflicted by an authoritarian grandmother, Junior asked her to go out with him..Reluctant to leave Joey's body with the oddly jumpy mortician, Jacob nevertheless crossed the porch of the Victorian style funeral home and left without glancing back. He walked one mile home, alert to passing traffic, especially cautious at intersections..Being ruthlessly honest with himself, as always, he acknowledged that killing Tammy would not solve his problem. She might have told friends and colleagues about the Rolex, just as she had surely shared with her girlfriends the juiciest details about Junior's unequalled lovemaking. During the two months that he and the cat woman dated, others had heard her call him Eenie. He couldn't kill Tammy and all her friends and colleagues, at least not on a timely enough schedule to thwart the police..In fact, though he strained hard to recall their conversations, he could dredge up nothing that Seraphim had said during therapy, as if he'd been stone-deaf in those days. The only things he retained were sensual impressions: the beauty of her face, the texture of her skin, the firmness of her flesh under his ministering hands..As kinky and thrilling as it had been to make love to the girl while playing the recorded rough draft of a new sermon that she had been transcribing for her father, Junior could now recall nothing of what the reverend had said, only the tone and the timbre of his voice. Whether instinct, nervous irritation, or merely the sherry should be blamed, he was troubled by the thought that there was something significant about the content of that tape..Tuesday, January 9, having cashed out a number of investments during the past ten days, Junior made a wire transfer of one and a half million dollars to the Gammoner account in the Grand Cayman bank.. "Maybe he could if he was able to lift it, but I couldn't throw a pig or an Oreo or anything else into any other place. It's just not something I know how to do.".He raised the lower sash of the tall double-hung window and slipped quietly into the dark kitchen. Because the window served also as an emergency exit, it wasn't set above a counter, and ingress was easy..He couldn't easily refuse the assignment. Later that year, President Lyndon Johnson, with strong backing from both the Democratic and the Republican Parties, was expected to sign the Civil Rights Act of 1964, and currently it was dangerous for clearheaded believers in the primacy of self to express their healthy instincts, which might be mistakenly perceived as racial prejudice. He could be fired..The birthmarked man identified himself as Detective Thomas Vanadium. He did not use the familiar, diminutive form of his name, as had the doctor, and his voice was as uninflected as his face was flat and homely..That every mortal semblance took..Averting his eyes from Vanadium's face, Junior moved farther up the stocky body. He folded back the tweed sports jacket to reveal a shoulder holster..that he could not entirely analyze. Any amateur magician-indeed, anyone willing to practice enough hours, magician or not-could master this trick. It was mere skill, not sorcery. "What was your motive, Enoch?".With the determination of any pulp-magazine adventurer, Paul walked in sunshine and in rain. He walked in heat and cold. Wind did not deter him, nor lightning..In spite of his dumpy appearance-and especially in the dark, where appearances didn't count-Vanadium had the aura of a mystic. Although Junior didn't believe in mystics or in the various unearthly powers they claimed to possess, he knew that mystics who believed in themselves were exceptionally dangerous people..The six-foot-tall statue was of a nude woman, formed from scrap metal, some of it rusted and otherwise corroded. The feet were made from gear wheels of various sizes and from bent blades of broken meat cleavers. Pistons, pipes, and barbed wire formed her legs. She was busty: hammered soup pots as breasts, corkscrews as nipples. Rake-tine hands were crossed defensively over the misshapen bosom. In a face sculpted from bent forks and fan blades, empty black eye sockets glared with hideous suffering, and a wide-mouthed shriek accused the world with a silent but profound cry of horror..Her life was so blessed that she could have dealt with a horde of locusts, let alone a few mosquitoes..His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain-especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist.
